## SUMMARY OF CHANGES

## SECTION SF 30 - BLOCK 14 CONTINUATION PAGE

The following have been added by full text:

QUESTIONS & ANSWERS #5

The following provides information to all Offerors regarding the continuation of questions submitted and the Government's response regarding Request for Proposal N68836-16-R-0003.

**64. Question:** in C-12.8.3, third paragraph, in reference to Wheelhouse hardware and software, it states that "Contractor shall have dedicated personnel to support maintenance scheduling, data entry to include common verbiage, accuracy of entries, completion entries, inventories and quality assurance checks. Please clarify what "dedicated personnel" means. Does it mean that a person(s) is 100% dedicated to doing this work in Wheelhouse, or can that person(s) have other functions as well?

**Government Response:** "Dedicated" means the Government requires that the Contractor have personnel assigned to perform all required tasks to support maintenance scheduling, data entry to include common verbiage, accuracy of entries, completion entries, inventories and quality assurance checks. It is the Contractor's sole responsibility to determine appropriate resources needed to accomplish all of the work required by the Performance Work Statement. Additionally, the Government has provided a Staffing Plan resource tool in Technical Exhibit 11.

**65. Question:** In Section L under Factor 3: PRICE section 3, it states that "The Government will evaluate offers for award purposes by adding the total price for all options, including the potential six months option period available under FAR 52.217-8, to the total price for the basic requirement." It further states that "The pricing used for the option under FAR 52.217-8 will be based on the fourth option period monthly unit price multiplied by six (6) for all CLINs except the Reimbursable CLIN. The price for the Reimbursable CLIN will be \$500,000.00." This would be fine for pricing that relates to a "per day" cost, or that could be started and stopped with short notice, such as consumables purchases, and payrolls of crew and staff; however, a few items, most specifically the Wheelhouse annual subscription, and possibly a few other pricing items, cannot be fully recovered within 6 months unless the full value of the CLIN, rather than the 1/2 value, as proposed, is used in the pricing. Please clarify how the Government expects the Offerors to recover their costs in the Option period under FAR 52.217-8 in these instances.

**Government Response:** In accordance with FAR 52.217-8, if the Government requires continued performance of services, they must be within the limits and at the rates already specified in the contract. Therefore, the rates shall be the unit price of each applicable CLIN which corresponds with the most recent period of performance (Fourth Option Year). The unit of issue for all CLINs is monthly with the exception of the WheelHouse CLIN, Reimbursable CLIN and Docking Regular Overhauls (DROHs) CLIN.

If the Government requires continued performance of services DROHs will not be performed in the option extension period; therefore, no price will be evaluated under FAR 52.217-8 for overhauls.

Wheelhouse Commercial Maintenance Program service support will be required if the Government requires continued performance of services. The additional service support will be added to the contract through a negotiated modification in accordance with the Changes Clause; therefore, no price will be evaluated under 52.217-8 for Wheelhouse.

The Government directed price for the Reimbursable CLIN is \$1,000,000 for the fourth option year; therefore the pricing the Government will use for the option under FAR 52.217-8 for the Reimbursable CLIN is \$500,000, based on one-half of the fourth option year price.

The pricing the Government will use for the option under FAR 52.217-8 for all other CLINs will be based on the fourth option year monthly unit price multiplied by six (6) for the six-month extension period.

(End of Summary of Changes)
